The short data book contains main indicators characterizing labour market of the Republic of Belarus. The short data book presents detailed information on labour resources, qualitative composition of economically active, employed and unemployed population, staff training and wages and salaries of employees.

The discrepancy between the totals and the sum in some cases can be explained by using rounded off data.

The short data book contains methodological explanations of some statistic.

A short glossary of statistical terms and methods for the production and calculation of labour statistics is available on the official website of Belstat in the global computer network (www.belstat.gov.by) in the Methodology section only in Russian.
