The statistical reference book is an annual publication that provides brief information on the socio-economic situation in the Republic of Belarus.

Selected data for 2020 have been revised as compared to those published earlier; in some cases data for 2021 are preliminary and may be revised in further issues.

Population data have been adjusted for the 2019 population census results. Relative indicators have been calculated using the population number (average annual population) adjusted for the 2019 population census results.

Data by economic activity are presented in accordance with the national classification of the Republic of Belarus OKRB 005-2011 "Kinds of economic activity" (OKED).

Data in value terms are shown at current prices.

A brief glossary of statistical terms (in Russian) is available on the website of Belstat at <https://www.belstat.gov.by/metodologia/kratkiy-glossariy-statisticheskikh-terminov/>

Methodologies of compilation and calculation of indicators (in Russian) are available on the website of Belstat at <https://www.belstat.gov.by/metodologiya/metodiki-po-formirovaniyu-i-raschetu-statistichesk/>.
