Sectoral structure of the number of organisations and the number of individual entrepreneurs

The leaflet presents data on the key economic indicators of small and medium-sized business in the Republic of Belarus for 2024 (data for individual indicators are provisional and can be refined later on).

Small business entities (*micro- and small organisations and individual entrepreneurs*) and medium business entities (*medium organisations*) are defined in accordance with the Law of the Republic of Belarus of July 1, 2010 "On the support to small and medium-sized business".

More detailed statistics on the activities of the small and medium business entities and methodological explanations for statistical indicators are available in the **Information and analytical system of dissemination of official statistical information** (<https://dataportal.belstat.gov.by>).

Trend:

- ↑ increase over 2023
- ↓ decrease over 2023

Infographics:

data on micro, small and medium organisations

data on individual entrepreneurs

data on micro, small and medium organisations and individual entrepreneurs

share of small and medium business entities, % of the regional (Minsk City) level

Major abbreviations:

IE - individual entrepreneurs

thsd - thousand

BYN - Belarusian ruble

p.p. - percentage points

mln - million

USD - United States dollar

bn - billion

The average employment is the sum of the average number of employees of organisations, the number of individual entrepreneurs and individuals engaged by them.

In several cases insignificant discrepancies between the total and the sums of data should be assigned to data rounding.
